

PARTNER SEARCH

Mobility Projects for VET learners and staff	
Funding Programme	Erasmus+KA1
Applicant	<p>Asterisco – Partner in mobility projects</p> <p>Asterisco is a no-profit Association set up in 2002 with the mission of promoting Human Resources focusing on the investment in the individual and its potential, through increasing the knowledge and skills of youth and professionals, workers and unemployed. Therefore Asterisco is active in Vocational Training System and Employment Services and is specialized in the Implementation of European mobility Project as Intermediary or Hosting Partner in the framework of the LLP Program, today Erasmus Plus. The commitment on the transnational framework is based on the strong belief of the importance to cross the borders and to open ourselves to constructive and propulsive practices and models within Europe and beyond. Such openness always fosters growth opportunities, and positively influences both: our Organization and our partners involved. The transnational cooperation is based on the idea that the organized compared analyses of different cultural realities, the exchange of ideas and development of joint initiatives is essential for growth and improvement.</p>
Topics of interest	Internship experience for students and Training course + technical study visits for adults in different sector.
Description of association experience	<p>Asterisco has experience in the implementation and management of mobility projects as Intermediary and Hosting Partner.</p> <p>The principal activities carried out from the Transnational Mobility Department within a mobility project are:</p> <ul style="list-style-type: none">▪ planning and management of start up procedures ;▪ planning and implementation of training courses, traineeships, technical visits and so on;▪ management of administrative procedures;▪ planning and implementation of cultural activities (language courses, conversation exchange, cultural visits, ecc.);▪ organization of all logistic services (airport transfer, public transports, accommodation and so on);▪ management of all technical and organizational aspects of the mobility;

	<ul style="list-style-type: none"> ▪ management of the incoming participants flows (welcome meeting, orientation meeting, meeting with companies tutors and managers, etc.); ▪ management of the relationship with foreign partners and with participants; ▪ planning and implementation of monitoring and evaluation activities during the whole mobility experience; ▪ planning and implementation of the follow up activities – delivering certifications. <p>Moreover the approach of Asterisco to mobility experiences is as follow:</p> <ul style="list-style-type: none"> - tailoring of the programme to the needs of participants and of the Organisations in order to achieve the aims of the Projects; - the staff are equipped with knowledge and rich practical experience in the monitoring and tutorship of the participants and programs; - combining formal and informal approaches to monitor the evolution of the mobility experiences establishing close relationships with the participants; - encouraging reflections and feedback after each mobility programme; - issuing certificates after the programme; - putting a special emphasis on the social and cultural dimensions of programs.
