INFORMARE

Regiunea italiană Veneto şi Camera de Comerţ Padova caută parteneri pentru o propunere de proiect INTERREG Eurpe, cererea 2015.

Data deschiderii cererii: jumătatea lunii iunie.

Titlul proiectului: "Open government policies, open data and digital economy. Innovative services and SMEs from the standardized availability of open data"

Axa prioritară 1: Întărirea cercetării, dezvoltare tehnologică şi inovare.

Obiectiv specific: Îmbunătăţirea punerii în aplicare a politicilor de dezvoltare regională şi a programelor, în special a programelor de investiţii pentru creştere şi locuri de muncă şi, după caz, a programelor de cooperare teritorială europeană care sprijină livrarea de inovare de către actorii din lanţurile de inovare regională în domeniile „specializare inteligentă" şi oportunităţi de inovare.

Parteneri căutaţi: administraţii publice locale/regionale, camere de comerţ, agenţii locale de dezvoltare, parcuri tehnologice orientate TIC.

Fişa de prezentare se regăseşte în anexă.

INTERREG EUROPE 2020: Project Abstract

Project idea name	Open-government policies, open data and digital economy. Innovative services and SMEs from the standardized availability of open data.
Contact name	Andrea Galeota
Organisation	Padova Chamber of Commerce
Email	progetti@pd.camcom.it
Telephone number	0039.049.8208257
Priority	**Priority Axis 1:** Strengthening research, technological development and innovation **Obiettivo 1.2** Specific objective 1.2: improve the implementation of regional development policies and programmes, in particular programmes for investment for Growth and Jobs and, where relevant, European Territorial Cooperation Programmes, that support the delivery of innovation by actors in regional innovation chains in areas of "smart specialization" and innovation opportunity.

Policy instruments addressed	**Italy:**
	 - Digital agenda of the next 2014-2020 EU programme.
	 - Italian Strategy for the Digital Growth 2014-2020 (3 March 2015)
	 - Digital Administration Law (art. 9 D.L. n. 179/2012), National Agenda on PSI (2014) and annexed guidelines approved with law n. 95 26 June 2014:
	     - Link 1
	     - Link 2
	 - PSI Rules and Directives at Local (regional) level (May 2014)
	 Italy – Veneto
	 POR-FESR Veneto Region - Axis 2 - 3MI allocated
	 Italy – Piedmont
	 POR-FESR Piedmont - Axis 2 - Action 2.2.3 - 3MI allocated for actions on interoperability between public data base and open data

What is the aim of the project idea? (What are the issues, problems, opportunities you want to address?)	**Rilevance of the subject:**
	    a. Implementation of the Digital Agenda with special attention to the availability of open-data by Public Institution
	    b. Implementation of Transparency policies in public data and standards of accessibility
	    c. Availability of open-data to support growth and economic development
	
	 Aim of the project:
	 1. To verify the status of the digital agenda in Europe concerning the transparency and the accessibility of data;
	 2. To collect best practices and experiences concerning the use of open-data to support the implementation of innovative services and the local development.
	 3. To analyse and check policies concerning the use of public open-data (e-government) for the economic growth
	 4. To analyse all relevant topic and policies for the link between open-data for E-government and digital SMEs/innovative SMEs
	 5. To identify a model to implement public open-data to support economic growth with innovative/digital SMEs;
	 6. Definition of a standard to make the public open-data available with a specific attention of their re-use to support economic growth
	 7. To support the implementation of calls of proposals published by Public Institution and addressed to private actors (SMEs) able to implement the previous model (innovative services and products from the re-use of public-open-data)

What are the planned activities and expected results?	These are the macro activities to be developed: 1. Collection and analysis of best practices and experiences concerning policies, call for proposals developed and implemented by Regional Authorities to support the digital economy coming from the e-government policies implementation 2. According to defined criteria and indicators, identification of gap and benchmarking from the previous analysis 3. Development of model of local intervention (policy recommendation, financial instruments of reference, schemes for call for proposals) to be suggested to regional authorities for adoption within the framework of the implementation plan 4. Availability of materials, models and schemes to the regional authorities (to share experiences, to adopt them, to integrate existing running experiences and policies/call for proposals within the framework of 2014-2020 Programmes and development plans) 5. Identification of supporting services to be provided at local level by BIOs to support the implementation of the above mentioned policies (digital economy) 6. Development of toolkit of instruments and services to support BIOs to assist SMEs/economic operators to be involved for the implementation of the above considered policies 7. Testing (??) of the model and related tools with the Regional Authorities and BIOs 8. Implementation plans as follow-up of the project (Regional Authorities in charge to)
Type of partner I am looking for (country, governance level, activity sector, expertise etc.)	Every involved country have will be represented into the project by the following PP: • Regional Authority, as the main holder of PSI; • Chambers of commerce/local development agency/ICT oriented development park, able to involve local ICT SMEs and identify SMEs needs in terms of reuse of PSI
Is your project a follow-up project? If so, of which and describe the link between the projects.	HOMER Project
