Title of proposed project (so far):	“Digital Teacher”
Funding programme:	<p>Erasmus+</p> <p>Key Action 2 - Cooperation for innovation and the exchange of good practices → Strategic Partnerships for School Education</p>
Deadline:	31. 3. 2015
Description of project idea:	<p>The project is based and draws on the experience of the applicant with the implementation of a project on the integration of ICT into teaching at the national level (<i>“Learning by touching”</i>, CZ.1.07/1.3.00/51.0031). Fifty primary and secondary schools within the Czech republic have been involved into this project in which their teachers acquire and develop new techniques of ICT and their use in teaching pupils and students.</p> <p>The key idea of this proposed project is transfer this knowledge and experience to schools in Central and East Europe and bring us together closer to the European level of digital era in teaching and learning.</p> <p>At the beginning of the actual realization a thorough mapping and analysis of the situation in all involved schools will be needed in order to find out their current status, needs and possibilities regarding the use of modern digital methods in their teaching. This will start a further procedure of the program setting, mutual meetings, workshops and other educational activities.</p>

	<p>The aim of working visits and meetings will be mutual learning and sharing of experience between teachers and mentoring of the applicant and other interested experts on this issue.</p> <p><u>Project outputs:</u></p> <ul style="list-style-type: none"> - an establishment of a long-term transnational strategic partnership between schools and educational institutions which are involved in the further education of teachers aimed on digital competencies, - a strong benefit to each participating school and organization in the form of new experience and knowledge gained from their colleagues and educators - a comprehensive methodology developed by all stakeholders serving in the future to the other schools and organizations that were not involved in the project, but are interested in learning new opportunities and current trends in the use of digital technologies in teaching
<p>Partner consortium (so far):</p>	<p>The applicant and leader: ATTEST, s.r.o. (http://attest.cz/?lang=en) Partner: DRUVT COMP spol.s.r.o. (http://www.cmv1.cz/) Associated partners: 2-3 primary schools involved in "<i>Learning by touching</i>" project</p> <p>No transnational partners yet.</p>
